While nothing compares to the experience of attending the live event, with its enhanced networking opportunities and direct contact with leading experts, for those unable to attend in person FP provides a convenient option to still benefit from this unsurpassed learning experience: FP’s live interactive Webcasts allow you to actively participate in events, from downloading all material distributed by lecturers to asking speakers questions.
FACULTY

COURSE LEADERS

SEAN CARAGATA
Sean Caragata is Director, Legal Services at Cisco Systems Inc. He is a seasoned commercial and IT lawyer who provides business advice, develops strategy, and drafts and negotiates high value sales, service, consulting, licensing, and M&A contracts in countries around the world.

RICHARD F.D. CORLEY
Richard Corley is a Partner at Goodmans LLP. His practice focuses on technology and IT law. He has over 25 years of experience, including complex outsourcing transactions, technology M&A, joint ventures and technology competition law matters.

CHRISTOPHER CATES
Christopher Cates is Assistant General Counsel - Procurement & Patents at Bell Canada.

EDWARD T. FAN
Edward T. Fan is a Partner at Torys LLP. His practice focuses on intellectual property and technology and licenses and agreements.

ELAINE R. HOLT
Elaine R. Holt is a Solicitor at City of Toronto Legal Services. She practices exclusively in the field of IT and IT procurement for the City of Toronto.

RICHARD CORLEY
Richard Corley is a Partner at Goodmans LLP. His practice focuses on technology and IT law. He has over 25 years of experience, including complex outsourcing transactions, technology M&A, joint ventures and technology competition law matters.

CO-LECTURERS

ROCHARD BEHARRY
Rochard Beharry is Legal Counsel, Information Technology and Intellectual Property at the City of Mississauga.

DUNCAN C. CARD
Duncan C. Card is Partner, Co-Head of Information Technology at Bennett Jones LLP. He is widely regarded as one of Canada’s leading technology lawyers.

WENDY LAW
Wendy Law is the Deputy City Solicitor for the Municipal Law Section at the City of Mississauga.

IT PROCUREMENT GOVERNANCE

Proper handling of IT procurement and project planning processes are crucial to effective deployment and operation of IT infrastructure as well as management of public and corporate finances. This session will highlight the need for IT procurement governance, explaining what it is, why it is critical and how to implement:

- Rules that frame the procurement process
- Identifying procurement compliance gaps and liability concerns
- Symptoms of poor governance and how to address them through policy updates
- IT procurement governance best practices
- Key legal issues in IT procurement
- Regulatory aspects that play a role in procurement of IT services
- Best practices for managing business and legal risk

NEGOTIATING IT CONTRACTS - ADVANCED STRATEGIES TOOLKIT

In order to take advantage of what the marketplace has to offer and achieve success in your IT contracting, you will want to remain on the cutting edge of best practices in negotiating and drafting agreements. This session will explore advanced negotiating principles and how to apply them so that your personal strengths and weaknesses can be used most effectively in future negotiations.

- Characteristics of a successful negotiator
- Assessing your negotiating philosophy and adapting it to create successful conclusions
- Planning and preparing for negotiations: how to set your targets prior to the negotiation
- Evaluating negotiating practices and improving skills
- Working with emotions and avoiding traps

This program can be applied towards 9 of the 12 hours of annual Continuing Professional Development (CPD) required by the Law Society of Upper Canada. Please note that these CPD hours are not accredited for the New Member Requirement.

For Alberta lawyers, consider including this course as a CPD learning activity in your mandatory annual Continuing Professional Development Plan as required by the Law Society of Alberta.

Attendance at this course can be reported as 11 hours of Continuing Professional Development (CPD) to the Law Society of B.C.

The Barreau du Québec automatically accredits training activities held outside the Province of Quebec and accredited by another Law Society which has adopted MCLE for its members.
SOFTWARE CONTRACTS

Software is a complex product that can provide additional challenges to organizations involved in its procurement. This session will explore how to overcome these challenges in software contracts addressing the main issues in software procurement and licensing.

- Using software asset management tools and processes
- Planning, negotiating and managing software agreements
- Preplanning and disaster recovery issues
- Areas of risk in a software license agreement
- Trends that could increase software costs

DRAFTING EFFECTIVE RFPS

This session will provide best practices for drafting and negotiating RFPs.

- Fundamentals of government proposal writing
- Codifying all requirements in a single document
- Aligning objectives and evaluation criteria
- Trends in RFP design
- Obligations of the owner and bidders in RFPs
- Binding vs. non-binding RFPs
- Proposal handling process: screening for compliance
- Establishing and prioritizing selection criteria
- Avoiding missteps in the process

IT OUTSOURCING CONTRACTS

Organizations are increasingly turning to IT outsourcing. With the well-being of your organization often resting on these arrangements, it is critical that you have a sound understanding of these agreements. This session will examine key considerations in IT outsourcing agreements.

- Best practices in negotiating IT outsourcing agreements
- Asset ownership issues in outsourcing arrangements
- Adding flexibility and scalability to your outsourcing contracts
- Framework for measuring service provider performance
- Protecting security and confidentiality in the agreement
- Risk allocation

SERVICE LEVEL AGREEMENTS

To maximize the effectiveness of your service level agreements, customers need to structure their service level expectations into well-constructed and clearly defined objectives. This session will examine the process of designing and drafting a service level agreement to ensure its long-term success.

- Defining service-level objectives and drafting them into the agreement
- Internal governance of contract including monitoring and reporting
- Defining consequences of breach
- Negotiating improvements

DEVELOPING WIN-WIN CONTRACT MODELS

With organizations becoming more dependent on external vendors, they are recognizing the need to transition from buyers to relationship managers. This presentation will address how to develop win-win contract models.

- How to establish and maintain an effective working relationship with your key vendors
- Making the transition from a traditional “customer-vendor” relationship to a “strategic partner” relationship
- Customer-vendor relationship management management from an alternative perspective

EMERGING TECHNOLOGIES: NEW CHALLENGES AND OPPORTUNITIES

This session will look at emerging technologies, the challenges and opportunities that they provide and their impact on IT agreements. Key new trends that will impact how you buy and manage technology

- Refining procurement processes to analyze cost effectiveness
- Virtualization of IT
- Cloud-based solutions
- Social media tools and issues
- Green computing
- Data protection issues

LARGE-SCALE IT CONTRACT NEGOTIATIONS AT BELL

This presentation is designed to help you understand the key elements and strategies that drive an effective large-scale IT purchasing transaction. It will explore practices that can be applied to any organization to improve the outcomes of their IT projects while helping mitigate risks. In particular, this presentation will discuss:

- The IT project contract “life-cycle”
- Crafting a negotiation structure and negotiation strategies
- Documenting and maintaining your contractual documents
- Creating mutually beneficial incentive structures to foster collaboration and project completion
- Planning for the end of a project and transition

BEST PRACTICES FOR MANAGING AND RESOLVING IT CONTRACT DISPUTES

Almost all large, complex IT procurement contracts run into disputes at some stage. This session will explore how to minimize the risk of future disputes in business contracts and provide cost-effective strategies to deal with disputes and litigation risks should they arise.

- Drafting dispute resolution clauses for IT contracts
- Creating a dispute resolution mechanism
- Negotiating arbitration clauses for IT contracts
- Inclusion of constructive performance obligations
- Drafting key provisions to minimize the risk of disputes
- Increased risk factors for IT contract disputes

WORKSHOP

CLOUD CONTRACTS

While cloud computing gives organizations low-cost access to powerful computer resources, the process is not without its risks and legal pitfalls. This workshop will explore what cloud computing is, various cloud computing service models and the related legal and compliance issues.

- Trends in cloud pricing models and contracting
- Managing cloud risks: security, identity protection, regulatory issues
- Due diligence on the service provider
- Trust criteria in cloud services: security, privacy, confidentiality, availability, integrity
- Managing and monitoring cloud services, including SLAs
- Anticipated savings: hidden costs in cloud contracts
- Data protection: securing personal and confidential information
- Disaster recovery and continuity planning
- Governance and other key cloud contracting issues
Please note that non-attendance at the course does not entitle the registrant to reserve your place, call Federated Press toll-free at 1-800-363-0722.

Press has special team discounts. Groups of 3 or more from the same organization receive 15%. For larger groups please call.

Registration: To reserve your place, call Federated Press toll-free at 1-800-363-0722. In Toronto, call (416) 665-6868 or fax to (416) 665-7733. Then mail your payment along with the registration form. Places are limited. Your reservation will be confirmed before the course.

Location: Courtyard by Marriott Downtown Toronto, 475 Yonge Street, Toronto, ON, M4Y 1X7

Conditions: Registration covers attendance for one person, the supplementary course material as described in this document, lunch on both days, morning coffee on both days and refreshments during all breaks. The proceedings of the course will be captured on audio or video.

Time: This course is a two-day event. Registration begins at 8:00 a.m. The morning sessions start promptly at 9:00. The second day ends at 5:00 p.m.

Payment must be received prior to May 28, 2015.

NOTE: Please add 13% HST to all prices.
